[From the Utica Morning Herald, Jan. 22, 1858.]

Benjamin F. Walker, of Madison, in the west part of A remarkable case of disease of the eye. He had been extremely afflicted for six months or more, and the remedies applied heretofore had not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a simple prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 18, 1858.]

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of vision upon the eyes of Miss Julia C. Hankins, of Taunton Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with respect by those who are unfortunately liable to its injury, as it is with joy by those who have experienced salutary blessings.

### "To the Pure all things are Pure."

This may be true in point of fact, in the scale of the great whole. But in point of experience, with our relative conditions, it is not true any more than "what ever *is*, is right," when compared with our *notions* of what is *right*, and what is *wrong*. We are aware that what is right in one Religion may be wrong in another Religion. What is Truth in one country may not be considered so in another. All seem to judge from different standpoints. And judgments differ like our tastes.—One has a preference for one color, and another person for a different one. One has a love for the voluptuous, and open the fondest caresses in nature by an outflow of such passion. While another is passing sanguine, and flegmatic, and exhibits no such outpourings of his Nature, but treats all about alike, and is as sublime on one subject as on another.

Such is the diversity of talent, taste, notions, or whims, of the masses, that it is pretty difficult, now-a-days, of telling—unless we arrogantly assume what is pure, what is just, or what is right!

We, in our quiet mood, in our sanctum, giving vent to our thoughts, as they teem forth one after the other, cannot assume at this age of the world, that we know it all, that our notions of purity, are exactly plenary, or complete; but our natural charity seems to *feel* out, and look over our exchanges to recognize something better, different, purer, and more to the great wants of the general reader, as well as ourself. We, however, too often find ourself lost in the labyrinth of the maze before us. The ten thousand phases of thought, which looms up before us,—all presenting their claims upon our credulity, our confidence, and our adoption, as so many mentors, and teachers, that we shrink before their vast variety of claims, sometimes feeling a disposition to level our condemnation against them all, and stand head and front above every aspiration that we see springing up from every other source, concluding, of course, that our own purity, our own tastes, and our own assumptions may be as good *authority*, as perhaps, the next man's.

And again, when we come to tastes—our olfactories, our predilections, and the demands of our stomach, revolt at the fumes that too frequently beset our nostrils, which others are forever luxuriating in, and quaff, as we would the scent of the June rose; and who pour into their stomachs daily such ingenuous articles of diet, as would forever dethrone our digestive functions, and destroy our appetite, for any food, however wholesome. And the teeming predilections of every variety show themselves so constantly, and so efficiently, that our humble "*selfishness*," seems knocked in the head, and we are induced by our natural modesty to keep cool.

A serious trouble has arisen in Newark, N. J., between the authorities of the Trinity Church [Episcopal] and the citizens.—Permission has been granted to the Church by the Common Council to build an addition to their church edifice on the public Park. The citizens object to any such disposition of the property, and under the lead of several of the most prominent among them, Wednesday evening cut down a fence which had been erected by the church preparatory to commencing to build. A squad of Police was called out, but did not arrive on the ground until after the demolition had been accomplished. Much excitement exists and more serious trouble is anticipated.

---

A When the express recently arrived at one of the stations on Lower Trinity with a blooming widow in charge, the Justice's court, then in session, was adjourned for ten minutes, to give the attorneys and jury a sight at crinoline.

A steamer for Pike's Peak has been invented by a Chicago editor, which "can run anywhere after a heavy dew!" In the absence of dew, it is probable that she will carry a street-sprinkler on her bow, which, worked by steam, will sufficiently moisten the prairie for her passage.

BURLINGTON, June 16

The Democratic State Convention assembled here to-day, and was quite largely attended. The following State nominations were made:

For Governor—John G. Saxe.

For delegates to the National Convention at Charleston, the following were chosen:

John S. Robinson, of Bennington, Henry Knapp, of Newbery; Jasper Rand, Berkshire; E. M. Brown, of Woodstock.

Mr. Saxe, being present, made a brief speech, accepting the nomination.

Resolutions were adopted in favor of non-intervention; in favor of the compromise of 1850; in favor of a strict adherence to the doctrine of "popular sovereignty;" endorsing the administration of James Buchanan; favoring the acquisition of Cuba, and hoping that the complication of European politics will aid the acquisition of that Island without the sacrifice of the National honor.

The resolutions further favor foreign emigration and express an abiding confidence in the principles of the Democratic party. Both factions were fully represented, but the Douglas men were largely in the majority, and quite jubilant at the result.

WASHINGTON, June 16

New Orleans papers of Saturday last are to hand, from which we extract the following intelligence:

General Sam Houston has accepted the nomination of Governor of Texas, tendered him by the Independent Convention.

The charge of Judge Campbell to the Grand Jury of the United States District Court for the Northern District of Alabama, was very strong against the re-opening of the slave trade.

NEW YORK, June 17

The first heat in the great trot yesterday was made in 7:54.

The inhabitants of Fayal are again in a starving condition. A meeting was held in boston last night, at which $1,000 was subscribed for their relief, and a committee appointed to solicit subscriptions.

At a Democratic meeting last evening in the 15th ward the Hon. John C. Mather discussed at considerable length the various political questions of the day as affecting City, State, and Nation.

ALBANY, June 17

The Democratic State Committee officially deny that there is any foundation for the report in the New York Daily News, respecting a meeting of committee. No meeting has yet been held, and ample notice will be given of the time of holding the State Convention, which probably will be called for September.

AN AFFRAY IN CANADA WEST.—The Durham Standard gives an account of an affray between the Sheriff and some magistrates of Huron county, and some debtors who resisted the seizure of a span of horses. The debtors fortified themselves in a tavern and threatened destruction to any one who dared to enter. The building was then set on fire by order of the Sheriff, and invested on all sides to prevent escape. When the place became too hot, those inside rushed forth in a body, and those guarding them broke on all sides.—Nearly one hundred shots were fired after them, but only one of the men were wounded, not, however, sufficient to prevent him making his escape. The tavern was burnt to ashes. The father and mother of some of the parties, and the wife of another, were arrested as accessories. At the last accounts nearly five hundred persons were under arms, to arrest five men.

---

On Wednesday afternoon, a number of the lady guests at the Mansion House, Ravenswood, L. I., ventured to bathe in the East River, opposite the grounds.—Two of the number, who were young ladies, were almost immediately carried by the swift current beyond their depth, where they must have perished, had it not been for the courageous conduct of three young lads, who at once plunged to their rescue. By almost superhuman efforts, and at the risk of their own lives, they succeeded in reaching the drowning ladies, and drew them in a state of insensibility to the shore. The last one rescued was just sinking for the last time, when she fortunately raised her clasped hands as if in prayer. This act enabled the lads to grasp her, and draw her from the current. The names of these brave boys are Alexander Shaw, Edwin and David Demmlberry.—The young ladies were finally restored to consciousness. A matrimonial alliance should follow such a romantic rescue, of course.

The Independance says that England is on the point of obtaining the abdication of the Grand Duke of Tuscany in favor of his son. Austria and Bavaria have protested at Berne against the passage of the French troops through the neutral territory of Savoy.

The gas consumers of Janesville are in trouble. Two different set of men claim payment for the gas, one being the receiver of the company and the other the lessee of the works. Each side threatens that if consumers don't pay them, they will shut down the gas.

MARRY.—JEREMY TAYLOR says, if you are for pleasure, marry; if you prize easy health, marry. A good wife is Heaven's best best gift to man—his angel of many minister of graces innumerable—his gem of many virtues—his casket of jewels—her voice, his sweetest music—her smiles, his brightest day—her kiss, the guardian of his innocence—her arms, the pale of his safety, the balm of his health, the balsam of his life—her industry, his surest wealth—her economy, his safest steward—her lips, his faithful counsellors—her bosom, the softest pillow of his cares—and her prayers, the truest advocate of Heaven's blessings on his head.

---

The National Era pitches into Horace Greeley for his speech at Owawatomie, in favor of the Union of the Opposition. It charges the Tribune with holding the Republican party in check—not giving it room according to its strength. In answer to the names suggested by H. G., the Era says, "No Bates, nor Bates, nor Bell, can lead the hosts of the North to victory." We will make a small venture, notwithstanding the anathemas of the Era, that the Philosopher is nearest right.

---

OPPOSITION.—We understand that arrangements have been entered into between the owners of the steamers McDonald and Alida, to form a daily line from New York to Poughkeepsie, and the intermediate landings. The fare has been fixed at 25 cents.—*Knickerbocker.*

This "opposition" is put on to pay off the Hudson River Road for carrying flour from Albany to New York for four cents a barrell. The fight will be an interesting one, and will cost both sides $10 every time they earn one.—*Albany Statesman.*

---

POSSIBLE CHANGE IN THE CABINET.—The Secretary of War has returned from Virginia, and is seriously ill. His health has been declining for several months, and unless an improvement soon takes place, his retirement from the Cabinet will become necessary. In that event, it is expected that Charles J. Faulkner, of Va., will be appointed to the vacancy.

# Latest News.

## BY TELEGRAPH.

NEW YORK, June 17.

The steamer City of Washington will take out for Liverpool $5 000 to be forwarded to Cavour, being the first installment of the American fund to aid Italy in obtaining her independance.

Paul Morphy visited the rooms of the Brooklyn Chess Club last night, and played two games with Mr. H. H. Knout, and one with Mr. Monzske. In each game Morphy gave the odds of a Queen's Knight, and was the victor in all.

Next week Mr. M. proceeds to Philadelphia, on a visit to the Atheneum Club when he will start for New Orleans via Cincinnati, St Louis and other cities.

The preliminary examination was commenced to-day, in the case of the slaver Orion, and the testimony of Lieuts. Dallas and Campbell was taken.

Lieut. D. stated that Capt. Hanna admitted to him that he (Hanna) was employed to take the Orion to the coast of Africa, where he was to transfer the cargo of the vessel, which was thereafter to be employed in the slave trade.

The persons under examination are D. Morgan, 1st mate, and 12 of the crew.

The evidence as to the character of the vessel was very minute, but the Commissioner held that the evidence was insufficient, and the prisoners were accordingly discharged.

ST. CATHARINES, C. W. June 17.

The embankments between locks 22, 23, and 24, of the Welland Canal were washed away yesterday, by the overwhelming force of the water suddenly precipitated upon them by the breaking of the lock at Thorold. It is feared that ten or twelve days will be required to repair the breaks. Some 20 vessels are detained in the canal, including the propeller Ogdensburg, above and Buck Eye below the break.

WASHINGTON, June 17.

The ordering of a more effective naval force to the African coast was not in consequence of any late complaints by the British government; it was long ago contemplated, but until recently there were no vessels which could be used for that purpose.

So far as our government is aware no new orders have been issued since 1842 by the British in connection to the treaty stipulating for the suppression of the slave trade on the coast of Africa. There is nothing in recently received letters to distinguish gentlemen in Washington which affords any ground for belief that England will become involved in the present war in Europe.

It is understood that the Cabinet to-day finally acted on the document they had for several weeks had under consideration expressive of the views of the Administration of neutral rights. It will probably be transmitted to Mr. Dallas by the next steamer.

BOSTON, June 17.

The celebration of the anniversary of the battle of Bunker Hill is now progressing in Charlestown.

All the public buildings and numerous private dwellings in that city are gaily decorated and the military and firemen are parading, but the drizzling rain storm interferes somewhat with the programme, and the streets are less crowded than is usual on this occasion. In this city the Custom House, most of the offices, the banks, and many stores are closed in honor of the occasion.

ST. LOUIS, June 17.

Geo. H. Smith, who drowned his wife in the Mississippi in December, 1857, expiated his crime upon the gallows in the jail yard in this city at 20 minutes past 1 o'clock this P. M.

splendid manner the SALOON next door east of Mrs. Denslow's Millinery Store, where he will promenade the above business in all its branches.

He will keep a general assortment of Toilet and Fancy work, and execute to order such candies and ornamental designs as is demanded for parties of pleasure and Festivals generally.

He flatters himself that his mechanical ingenuity, and long experience in his business will enable him to give to all general satisfaction,—having been to much expense in getting his establishment in readiness, and making his place attractive—he earnestly solicits a liberal patronage from the town and country.

He will also keep Ice Cream flavored to the taste of the most discreet epicure—and holds himself in readiness to cater to his customers with the luxuries of his calling, and to make his place a fashionable resort to all who desire delectables.

DR. CORDSWELL'S NEW MEDICAL SALT.

**For Inflamatory Diseases Only.**

*New Medical Salt! New Medical Salt!*

**IT IS NOT A CURE-ALL.**

For Inflammatory Diseases only.

DR. CORDSWELL'S NEW MEDICAL SALT instead of its being a remedy for all ills, has control over but one ill, but that one ill, and accomplishes that one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

---

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no others,) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

---

NOTICE TO INVALIDS! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

---

DR. CORDSWELL'S NEW MEDICAL SALT does just what it claims to do—no more no less—equilibrates the fluids by removing from the system all acrimonial and vicious obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

## MEDICINES.

**Scrofula, or King's Evil,**

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the evil of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

**AYER'S**
**Compound Extract of Sarsaparilla,**

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the cure of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

**Ayer's Cathartic Pills,**

**FOR ALL THE PURPOSES OF A FAMILY PHYSIC,**

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cure, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a Disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

**Ayer's Cherry Pectoral,**

FOR THE RAPID CURE OF

**Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.**

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been rescued from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

**HYPOPHOSPHITES**

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all cases of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—convince all remaining doubts as to the *inestimable value* of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost *incredible success*. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as *speedily as possible*, into universal use, as I KNOW that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever but also
as Effectual a Preventive
as Vaccination in Small Pox.

"*In no instance* have I found the remedy *fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases in the *third or last stage*, treated as my Discovery, during the past year, *eight have completely recovered*, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most *powerful* generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile* signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.00, with full directions for use. A Manual of them for physicians and the trade. The Dry ingredients sent to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the General Depot to any U. S. dealer in Main Street. Ask no one to deceive you, but purchase and see only Winchester's Preparation.

Dr. Churchill's Work on Consumption is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

HERB DISPENSARY!

OFFICE 95 MAIN STREET,

*(3d door, Up Stairs, Buffalo, N. Y.)*

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhœa, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

*Diseases of the Urino-Genital Organs.*

A CLASS of Maladies prevalent to a fearful extent in community, causing at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Cleanness, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shrinking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, unusual pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorhœa, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named here have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of the School Doctors.

DR. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, with Sensitive Nerves, should not delay a moment, but call at once. Consultation Free.
